

Dear Mr. Kosinski

Thank you for choosing our products.

For the switch, I have found the perfect match for your requirements. The TP-Link TL-SG1016D, it is equipped with 16 ports, supports a Gigabit Ethernet connection and is fairly cheap with a price of € 49,46 excl. btw. The price for 17 switches will be € 840,32.

Our Shielded Foiled Twisted Pair CAT7 cables are 1,95 €/m. So one 15meter cable will cost you € 29,25. The total cost of the cables will be € 2193,57.

There will be given a price reduction of 5% because it is your first time purchasing our products. The total price will be € 2083,89.

The products will be sent out by express delivery due to the urgent request. They will be delivered in approximately 2 days. You will receive another email with further explanations of the payment and the delivery.

We hope to hear soon from you.

Kind Regards

Boelen Evi
